WAS TOO "WISE."

Gang of Swindlers Tried To Work Young Louisville Man, But He Failed to "Bite."

The fake foot race and fake horse race swindlers who are on trial at Council Bluffs, Ia., for swindling different suckers out of from one to two millions of dollars, once tried to land a well-known young Louisville man.

The gentleman selected as a victim was put "next" by a friend, and when approached by the swindlers there was "nothing doing."

It seems there was a young man living in Louisville temporarily, who had a brother who was one of the main wheels in the Maybray concern. He received a letter from his brother detailing his plans and telling him to try and locate someone in Louisville who had \$10,000 or \$20,000 who would take a chance. To get an introduction to the "sucker" and open up a conversation and incidentally tell him that he could put him "next" to a plan to work a phony race on a sucker from Minnesota and turn him for \$20,000.

This plan was the same old trick which Maybray and his confederates had worked so often. The local man was to think he was swindling someone else when, in fact, he was to be "done" for his money.

When he was approached he had been "touted" on to the plan and turned the proposition down cold.

The scheme as outlined was worked like this: When a sucker is hooked who shows his willingness to join in a scheme to rob somebody the sucker is made to join a pool—putting in all the money he can raise—and this pool is to be put up on the race. It looks all on the level and the sucker does not see how he can lose. He does, though. In every case something happens just in time to disconnect the sucker and his money.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Don's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor Girard, Ala. m.

Prominent Colored Educator.

Prof. James E. Givens, formerly President of the State Normal Colored School, and one of the best known colored men in Kentucky, died at his home in Louisville of typhoid fever. He was 50 years of age and was educated at Harvard University.

ATTEMPTS TO EXPLAIN.

Says He Was Lecturer When Charged For Making Political Speech.

A lively controversy has grown out of the charge that Caleb Powers, pardoned of complicity in the assassination of Wm. Goebel, and now a candidate against Don C. Edwards for the Republican nomination to Congress in the Eleventh district, demanded and received from the Republicans of Johnson county last fall \$500 for a speech at Paintsville in the interest of the Republican ticket.

Powers, in response to the charge, recently admitted having received \$500, but declared that it was for his lecture that he had been delivering in various portions of the country, and not for any speech in behalf of the Republican nominees.

In the issue of the Lexington Leader of March 14, a person who signed himself "Johnson County Republican" replied to Powers with the statement that the money was paid to Powers for a speech that he delivered in which he roundly scored certain Democrats; that it was in no wise a lecture, and that he was not paid for a lecture, and, further, that Powers refused to make the speech until he had been paid \$500 in currency; that he would not accept \$400 in currency and the check of a responsible Republican for \$100.

Whisky People Seek Election In Pineville.

The petition asking an election to determine whether or not Pineville, Ky., should have saloons or remain dry, was filed in the County Court at Pineville on March 14. It contains about 150 names, one-third cannot read or write. The petitioners ask that the election be held May 21, 1910. According to a promise made some weeks ago the Sun, the local paper, will in the next issue, publish the petition in full, signatures and all. It is claimed that many of the signers of the petition are not legal voters.

"RIPPER BILL"

Dies In Senate By An Indefinite Postponement of Its Discussion.

The closing session of the Senate on Tuesday, March 15, was made dramatic by expectancy on the final outcome of the Louisville Ripper Bill, which was effectively killed.

A throng of people awaited the Governor's veto with the bill from the House. The anxious moment arrived a few minutes after 5 o'clock. No sooner had the veto message from the Governor been read than Senator Thomas, an ancient enemy of the bill, moved to postpone indefinitely consideration of the bill. Final vote was 17 to 17, and President Cox with uplifted gravel said:

"The vote stands 17 to 17 and the chair votes yes."

The President declared the motion carried. The motion to reconsider and lay on the table was carried and the agony was over.

Previous to the defeat of the "Ripper Bill," the Senate had refused to pass the resolution in, dorsing the proposed income tax amendment to the Federal Constitution.

A plea for the adoption of the resolution was lost by a vote of 17 to 17, thus putting the Senate on record as being against the proposed amendment.

Among the bills passed was the measure appropriating \$38,000 to liquidate indebtedness of the State Fair and for the purchase of forty-five acres of ground. The last two bills passed by the Senate were the bills appropriating \$50,000 for the completion of the State Capitol grounds and \$12,000 for the colored State Normal School at Frankfort.

President Cox announced Senators Bosworth, of Bell county; Wyatt, of Logan county; Oliver, of Allen county, on the Good Roads Commission; Senator A. R. Burman, of Madison county, on the Appellate Court and Congressional Redistricting Committee. The Committee on Rules has named Senator Brown, of Breckenridge, and Senator Combs, of Fayette, on the same committee.

The Senate reconvened for its last session at 8:15 p. m.

II. B. to appropriate \$5,000 to assist in erecting a monument at the birthplace of Jefferson Davis, was passed by a vote of 25 to 1. Senator Vice voting against the bill.

II. B. 59, appropriating \$50,000 for the completion of the State Capitol grounds was passed by a vote of 21 to 1.

Fully nine out of every ten cases of rheumatism is simply rheumatism of the muscles due to cold or damp, or chronic rheumatism, neither of which require any internal treatment. All that is needed to afford relief is the free application of Chamberlain's Liniment. Give it a trial. You are certain to be pleased with the quick relief which it affords. Sold by all dealers. m

Fall Causes Death.

Dr. V. H. Hobson, aged forty years, of Richmond, fell from the second floor of an automobile garage he was building in Lexington. His skull was crushed and his brain ruptured. Dr. Hobson was one of the best known dentists in Central Kentucky. He was a brother of former Chief Justice Hobson, of the Court of Appeals.

Nomination Sent to Senate.

Among the nominations sent to the Senate on March 15, was William C. Harper for postmaster of Caledonia, Ky.

TAX DEFEATED.

House Against Revision of Revenue System.

William A. Robinson, tax expert of Louisville, sat in the House Tuesday afternoon last week and saw the bill looking to a revision of Kentucky's tax system killed by a vote of 53 to 25. For months and months he has labored incessantly to place Kentucky in line with other States in the matter of tax laws.

The bill was that introduced in the Senate by Thomas A. Combs and provided for a vote of the people on the question of amending the Constitution according to a plan proposed by the tax commission appointed by Gov. Augustus E. Willson. The measure had passed the Senate, and had it passed the House would have received Gov. Willson's indorsement.

This means that Kentucky's revenue system must remain as it is for the next two years, unless some action is taken at an extra session which Governor Willson may call. It means that the work of the tax commission appointed by Gov. Willson went for naught.

MANY BILLS PUSHED THROUGH.

Many bills were rushed through the House on the closing day. Among these are measures legalizing slave marriages, bill against "sweating" prisoners, bill limiting the liability of members of fraternal Assessment fire insurance companies, bill appropriating \$5,000 to establish negro farmer's industrial institutes in each of the congressional districts of the State, bill appropriating \$10,000 for the Kentucky House Society for colored children, Claude M. Thomas' bill allowing the Governor \$3,000 annually for expenses, bill appropriating \$40,000 for the benefit of the Blind Asylum in Louisville. These bills had passed the Senate.

GOVERNOR APPROVES MEASURES.

The Governor announced that he had approved the bill appropriating \$10,000 to the House for Incubators in Louisville. Another measure approved is that providing for the creation of a county school book commission, and its purpose is to bring about a uniform system of school books.

Several bills were killed during the final session of the House.

SEVERAL MEASURES PASS.

Among these are bill changing the form of ballot in allowing stock to run at large was passed by 67 to 0, bill fixing a penalty for destruction of fish by means of guns loaded with steel balls and copper jackets was passed by 61 to 0, bill providing that the mother shall be on an equality with the father in appointing guardians for children passed by 55 to 1.

Sixteen Butter Men Indicted.

In making its final report to the United States Court the grand jury brought in sixteen indictments against many alleged violators of the oleomargarine law.

The sixteen indictments contained about 908 counts. Nearly a hundred Louisville women testified before the grand jury that they had purchased unstamped "oleo" on the representation of dealers that the stuff was country butter.

The penalty for violating the "oleo" law is a heavy fine and imprisonment. The cases were worked up by the secret service men of the Internal Revenue Department.

Accidents will happen but the best regulated families keep Dr. Thomas' Eucletic Oil for such emergencies. It subdues the pain and heals the hurts. m.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Mt. Sterling women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Don's Kidney Pills permanently cure all these disorders. Here's proof of it in a Mt. Sterling woman's words:

Mrs. J. P. Nelson, 31 Richmond Ave., Mt. Sterling, Ky., says: "I can give Don's Kidney Pills my highest endorsement. They have proven of great benefit to me and I believe if I had not used them, I would be in poor health today. My back nearly drove me frantic as it ached almost constantly and I always felt tired and worn out. The least thing worried me and I also suffered from nervous headaches. Since using Don's Kidney Pills, procured at F. C. Duerson's drug store, I feel like a different woman. I take them whenever I have the least recurrence of kidney trouble and they never fail to give me prompt relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Don's—and take no other. 36-2

Ten Poisoned by "Black Oil."

Seven employees of the Mellwood Distillery at Louisville, the manager and two Government revenue men, narrowly escaped death as the result of eating pop corn popped in a frying pan which contained some grease, known as "black oil," used to lubricate the machinery.

THREE IN CRITICAL CONDITION.

After hours of heroic work five of the men were pronounced out of danger, two of them were on the road to recovery, while three were still in a critical condition.

The Bank Examiners bill may be all right in its purpose and in the requirements, but it is a serious error to require the nomination to be confirmed by the Court of Appeals. The court has no executive or legislative functions and questions of politics or patronage should be kept as far from it as possible.

True Standard of Man. The mind's standard of the man. —W. L. DOUGLAS

ROUNDED UP

Are The Men Behind the Bank of Orr Scheme.

Postal inspectors have at last run down and caught several of the men behind the fake "Bank of Orr" through which thousands of dollars worth of goods were obtained from jobbers and manufacturers in the larger cities. Mr. Prince, alleged head of the scheme, was held to the Federal grand jury, while two others implicated, are in jail at Olive Hill awaiting trial.

The plan of the syndicate was to order goods by the wholesale and give checks on the Bank of Orr, which exists only on paper. There were seven persons engaged in the scheme but Prince, who resides at Orr, Ky., styled himself President of the Bank of Orr.

The syndicate did a land office business until Uncle Sam came on their trail. Officers are now searching for the other four.

The Holland is as bad a bill as a legislative body could consider. It strikes a blow at all property rights. It is aimed at practical education. It is the embodiment of ignorance and prejudice, of bigotry and intolerance. We do not doubt the courts will annul it but it is discreditable to the State that such a measure could pass in any event, and doubly discreditable that it should pass over the Governor's veto. —EX.

SOME MORE STEPS.

Strangers should take their step ladders when they go to the post-office.

Those back-action, irregular elevated steps at the postoffice should be scientifically, hygienically, emphatically, economically, immediately renovated.

THOSE STEPS.

Men continue to stumble at those steps leading into the postoffice. On Saturday (?) we saw at one time three persons ascend the steps—two of them stumbled. A damage (?) arm, leg and suit may be the result.

COMMISSION FORM OF GOVERNMENT.

Governor Wilson approved the bill providing for the commission form of government for the cities of the second class, and Lexington, Covington, Paducah, and Newport may have this form of government if their residents so desire. The Governor gives no reason for his action in signing the bill. —Lexington Herald.

THE LEGISLATURE.

We present in this issue a lengthy account in condensed form of most of the bills passed by the Legislature, and the Governor's disposition of them up to Monday night. Our list is not absolutely correct, for a few of minor importance may be omitted. Under the heading "In the Governor's Hands" may be a few already acted on, notice of which escaped us.

ABOLISH THE GOVERNOR AND LEGISLATURE.

Well the Governor is still at Frankfort. The Lord help us! Between the bills which the Legislature defeated and the bills which the Governor vetoes the net result of the session of the Legislature will be mighty little. The Legislature defeated the Holland bill. The Governor has vetoed—well, what hasn't he vetoed? —Lexington Herald.

Convicted.

Juo. C. Mabray and 13 associates were convicted in the U. S. Court at Council Bluffs, Ia., for illegal use of mails in a scheme whereby swindling was done on a large scale. Two years and a fine of \$10,000 is the maximum penalty.

E. O. Gerrell will this week move temporarily to Mt. Sterling and go west on prospecting trip.

John Coons & Co., of Cynthia, have moved their saw and shingle mill onto Coons & Fassett's farm.

James Alexander bought from Berry & Boyd the Fassett farm on Flat Creek, containing 127 acres, for a profit of \$250 over \$13 per acre.

A. J. Foley died on Tuesday morning, March 15, 1910, at six o'clock, after a short illness of pneumonia. Mr. Foley and seven of his children were down with that fatal disease, and worrying about his children went greatly against him. Medical aid could not stay death and one of our best citizens passed away. He was a son of Geo. W. Foley and was born in Bath county, Ky., 50 years ago. He was mostly reared in the Flat Creek neighborhood. About 25 years ago he married Miss Mary Toy, who, with nine children, are left to mourn. He also leaves four brothers, John, of near Owensville; Will Ed, of Side View; Clell, of Mt. Sterling, and Claude, of this place, and two sisters, Mrs. James Clark, of Owensville, and Mrs. Willis Roberts, of Flat Creek. Mr. Foley was one of our best neighbors, being generous, hard working and pleasing. Indeed, we could find no fault with him. His death is not a loss to his family alone, but to all who knew him. Many years ago he became a member of the Flat Creek Christian Church. Funeral services were conducted Wednesday morning, March 16, by Rev. E. E. Dawson, and interment in Macpelah cemetery. The people of this community pour out their sympathy to the stricken family and relatives.

BILLS PASSED BY LEGISLATURE.

Of the Hundreds of Bills Introduced 149 Passed Both Houses.

HOW THEY ARE DISPOSED OF.

The Legislature adjourned on Tuesday night, March 14.

Governor Willson has a real job on his hands. He must go through and either veto or approve a total of 149 bills, for that number of measures passed the two Houses of the General Assembly. This does not include fifteen resolutions which were passed by the two Houses and which had to be acted upon by the Governor.

The bulk of the bills went to the Governor on the last day, so he has 125 or 130 bills to be passed upon in ten days.

Of the total 149 bills 71 originated in the Senate and 78 in the House. The Governor vetoed three bills, two of which were passed over his veto, the Holland negro school bill and the Klair tobacco bill. The Louisville ripper bill failed to pass over the veto.

The bill establishing a reformatory at one of the penitentiaries was signed by Governor Willson. It will take some months to establish a reformatory at Frankfort instead of a penitentiary.

BECAME LAW WITHOUT SIGNATURE.

Senate bill—Conn Linn—Appropriating \$30,000 annually for the use of the State Board of Health for preventing the spread of disease.

Senate bill—Conn Linn—Providing that when the circuit judge cannot preside the Governor shall appoint as a substitute a judge of another district, whose court is not in session.

VETOED AND FAILED OF PASSAGE.

THE POLICEMAN IN CHURCH

Sight of Uniformed Official Seems to Get on the Nerves of the Worshippers

"Did you ever see a uniformed policeman in church?" asked the gray-headed man. "Did you notice the effect he has on the congregation? There is a psychological problem worth investigating."

"There was a policeman in our church Sunday morning. As a consequence every one had a fit of nerves. It wasn't the policeman's fault. He didn't do anything, not in an official capacity, that is. He didn't come as a policeman, but as a worshiper who wanted to say a prayer the same as anybody else. His attitude, mental and physical, was wholly devout. He sat in an inconspicuous pew in the rear of the church where he could be seen by a few, but in less than five minutes the knowledge that he was there was flashed from pew to pew and everybody began to fidget. They wondered what he wanted. Somehow it never occurred to anyone that he was a seeker after spiritual light. They imagined that he had come to arrest somebody, and they were curious to see who it could be. That congregation, I take it, was a law-abiding body of people, from the pastor down to the most mischievous choir boy, yet everybody suspected everybody else of wrong doing. The pastor got nervous and mistook the power of his manuscript, the choir sang out of tune, an usher dropped the money box."

"Even after the service was over and the policeman had gone away without taking anybody prisoner. It was funny to watch the crowd. They separated into little groups, and each little group eyed some other little group suspiciously and whispered mysteriously. That, I find, is the usual attitude of a church audience toward a policeman. At a fire, at a theater, at a department store, at a prize fight a policeman is considered a legitimate part of the show and no one gets excited over him, but just let him go to church in a uniform and there is danger of having to call out the reserves."

Replies as Pets.

How strange are many of our prejudices! To illustrate this in common affairs, what boy is there who shrinks from picking up a frog? Moreover, what young fisherman hesitates to dip worms for bait, or handle them? Yet these same youngsters will shrink with loathing from a small snake. The first impulse is to kill the reptile. It is a ugly thing, but the little brown or green snake of our country roads is cleaner and nicer to handle than a frog or an angelfish. He is usually harmless also, and if greatly treated, will make an amusing plaything.

This prejudice is the result of custom and education. In some nations such reptiles are not dreaded. Lizards and snakes are tolerated as well as butterflies, and are even used as pets. If you catch a butterfly and give him a taste of molasses sugar on your hand you may release him. He will not fly away, but will remain perched on your finger and continue to feed. Toads may be tamed to take flies or millers from your hand, and so may the little gray lizards which abound in some portions of the country.

Kindness will work wonders with many of the inferior creatures which we hate or despise. Yet the prejudice against them is hard to root out. Often it exists unconsciously.

The Line He Carried.

Bishop Waterson of Nebraska was never at a loss for an answer to important questions. One day he met a man on the train who mistook him for a traveling salesman and started in to quiz the bishop.

"Do you represent a big house?" he began as an opener.

"The very blazes on earth," replied the bishop, with a twinkle in his eye. "What's the name of the firm?" continued the questioner.

"Lord & Church," smiled the bishop, pleasantly.

"Hum! 'Lord & Church'! Never heard of it. Got any branch houses?"

"Oh, yes, indeed; branch houses all over the world."

"Hum! That's queer! Never heard of them. Is it boots and shoes?"

"Neither."

"Oh, I see, dry goods, I suppose."

"Well, yes; they do call my firm some 'dat sometimes'—Judge."

Westinghouse Follows Father's Advice.

Though it could hardly be said to be for financial reasons, George Westinghouse, Jr., in marrying his wife Evelyn Brockbank, an English girl, is following the advice which his father has always given to his employees. "Of the many married employees that I have had," Westinghouse, Sr., says, "those who have their money are the ones who marry for life. Most of these employees have been imported from Germany, England or elsewhere, and some of them got more money here in a week than they would get in a year over there. I never have known it to fail that if one of these brings his wife with him he will have a good record in six months and own a house within a year; but if he marries an American girl he will probably never know what a bank account looks like."

From English Schoolboys.

The following schoolboy "howlers" are given by a correspondent. "To fill a butterfly you pinch its legs." "The blood-vessels are the veins, arteries and arterioles." "A running animal in one case that chews, eats." "Algebra was the wife of Euclid." "The masculine of vixen is vicar." University Correspondent.

Addition to Macphelah.

A 61 acre addition to Macphelah Cemetery is now being graded, platted and macadamized. The entrance from the pike will be opposite the present entrance. This and other avenues will be 20 feet wide, except the center drive, which will be at the bridge connecting the new with the present division, which will be 16 feet. The plans contemplate the erection of a bridge over the pike but it will not be built at present. R. S. Stokley has the contract for grading, etc.

DOMIGAN.—Miss Elizabeth Domigan, aged 80 years died at the home of her sister, Mrs. Jas. T. Donovan, on Grassy Lick, Tuesday, March 15, 1910. The funeral service was conducted by Rev. Wyatt on Wednesday afternoon.

RYAN.—Mrs. Catherine Ryan, aged 72 years, died at her home on Spencer pike on Tuesday, March 15, 1910. Rev. H. D. Clark conducted the funeral service on Thursday and the burial was in Macphelah. She was a member of the Christian church, a loving mother and friend. She leaves 8 children: Thos. of Bath; Mrs. Joe Coons, of Fayette; Mrs. Dan Ketchum, of Winchester; Mrs. Coleman Williams, of California; Miss Anna, of Lexington; Mrs. Jno. C. Trimble, Hugh and Mat. Ryan, of this county.

HAMILTON.—Mrs. W. C. Hamilton died at their home in this city on Monday morning, March 21, at 2:30 o'clock, after a sickness of two weeks with pneumonia. The funeral service was held at the Christian church on Tuesday afternoon by Rev. H. D. Clark and the burial was in Macphelah. Mrs. Hamilton was Miss Nancy Emily Staggs, daughter of Wm. P. Staggs and wife of Sideview, this county. She was born January 25, 1851, hence was in her 30th year. Mr. Hamilton, now City Attorney, a young man from Menefee county, located in our city, July 3, 1902, and began the practice of law. He married Miss Staggs Nov. 5, 1903. They have one child: Mary Lucile, three years old last December. Mrs. Hamilton has for several years been a member of the Christian church, a quiet, refined and gentle spirit, a devoted wife and mother, looking well to the ways of her household. She realized the seriousness of her sickness and talked of her departure. She rests and her works follow her. She is survived by her parents, a sister and three brothers. Waterproof Shingles.
Shingles are now made under a patented process from asbestos fiber as Portland cement. Owing to the enormous pressure under which the shingles are manufactured, it is said that they absorb, when fresh, only about five per cent. of their weight of water; and when exposed to the atmosphere for a year or two that hydration and subsequent crystallization make them absolutely impermeable.

The Sense of Duty.
A sense of duty pursues us ever. It is omnipresent like the Deity. If we take to ourselves the wings of the morning, and dwell in the afternoon parts of the sea, duty performed or duty violated is still with us, for our happiness or our misery. If we say the darkness shall cover us, in the darkness as in the light our obligations are with us yet—Daniel Webster.

House Fly One of the Greatest Farm Pests.

"Typhoid fever and malaria have come to be chiefly diseases that afflict the farm and the rural community," said Prof. S. Hunter, head of the department of entomology at the University of Kansas recently, continuing: "Both diseases are carried by insects, and the way to exterminate them is to do away with the insects that spread them."

"The common house fly is the carrier of typhoid fever. In the cities this pest has been largely abolished by sewer systems and other modern methods of sanitation. The farm has still to deal with the question, and the reason for the prevalence of typhoid on the farms is that the farmer has as yet taken no adequate means to stop the disease."

FLY BREEDS IN REFUSE.

"The fly breeds in refuse of all kinds. The farmer should see that his place is kept clean. He should throw barn refuse into pits or closed sheds, and in the open paddocks he should allow chickens to run continually. They eat the eggs of the fly and the young insects before they fly away. If people in small towns and on farms will keep their surroundings clean they can almost exterminate the house fly. And when that insect goes typhoid fever will cease to be such a common disease."

Superintendent of Synodical Missions.

The executive committee of the synodical missions of the Synod of Kentucky, in conference with a committee from the New York Board of Home Missions, elected the Rev. F. J. Cheek, of Louisville, synodical superintendent for the State of Kentucky.

"The New York Board is desirous of aiding and stimulating the work of home missions in Kentucky, and rejoices in securing one so well acquainted with its people and moral conditions."

Is Ignorance a Promoter of Peace?

Chicago has a woman, Mrs. Ella Flagg Young, superintendent of public schools. She has declared in favor of a new departure in teaching history, whereby all details of wars are to be eliminated from the course of study for the purpose of advancing the cause of peace. Mrs. Flagg is not the father—we mean the mother—of the proposition. It originated with the Superintendent of County Schools of Cook county, and he is a man with the name of Nightingale. Nevertheless, the mere suggestion marks another step in feminizing the schools.

Bishop Fallows, of Chicago, once a soldier, is bold enough to express doubts of the efficacy of ignorance as a promoter of peace. To the proposition of Mr. Nightingale and Mrs. Young to eliminate from history all accounts of war, battle and soldiers, in order not to stir war passion in the young, Bishop Fallows responds: "We can't pluck out of history its noblest deeds. The Civil war was horrible, but it was nevertheless necessary, and I want to say right here that there are no stronger advocates of peace than the soldiers who have experienced the horrors of war."

Good Way To Do Business.

In ordering a 50c bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25 cents, W. S. Lloyd is giving one of the greatest trade chances ever offered to the people of Mt. Sterling.

If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining, Dr. Howard's specific will cure you. If it does not, you have druggist W. S. Lloyd's personal guarantee to return your money.

This remarkable remedy comes in the form of tiny granules, and can be carried in the vest pocket or purse. It is very popular in New York City, and it is not very unusual to see someone after a meal at one of the large hotels or restaurants take a dose of this specific, knowing that it will prevent the uncomfortable feeling which frequently follows a hearty meal.

New Citizen for Winchester.

Mr. W. T. Swango, of Montgomery county, who recently purchased the farm of Mr. W. O. Hoskins containing 200 acres at \$100 per acre, will move here about the first of April. The price paid for this farm is generally accepted to be low, considering the rich fertility of the soil and the many improvements the farm contains. It is well located, being about three and one-half miles from town on the Two Mile pike. Mr. Swango is a splendid citizen and we extend a cordial welcome. —Winchester Sun-Sentinel.

SOUTH DAKOTA.

Interesting Letter from J. J. Scott, Who Relates Some Experiences.

Harold, S. D., Mch. 13, '10. Editor Mt. Sterling Advocate. Dear Sir:—I will write a word about our Western home. We have been here about 18 months, have spent two winters here. I like the winters here better than in Kentucky. They are not so changeable. We have had a long steady winter. For 28 days the thermometer was below zero; 18 degrees was the coldest. We had about 100 days of fine sleighing. We never have any rain in the winter and very few days that is above freezing; so it is dry and nice and we do not mind the cold like we did in Kentucky.

The snow is about all gone except in drifts, and the ground will do to work in a few days. This is just beginning to be a farming country, but they are breaking the prairie now. They plow with the big steam outfit, 30 to 40 horsepower engine, 8 to 10 16-inch plows; one rig plows 25 to 30 acres in a day.

There are miles and miles of raw prairie that is open to run stock on, free of charge. If you do not want to run your stock out you can rent grass land for 10 cents an acre.

I cut about 450 acres last year that made a ton of hay to the acre. Hay is worth from \$4 to \$6 a ton now; you can have it put in the rick in the summer for \$2 per ton.

I think a man can do well in this country raising cattle, sheep or horses. They raise large horses and bring a good price. The day of the bronco is about past. The cattle are good also.

The game is not very plentiful except ducks and geese; they are flying now in large numbers. The ducks raise their young here but the geese go further North, and pass back in the fall. We have a few prairie chickens, prairie wolves, prairie dogs and jack rabbits.

Our school system is fine; we have 8 months free school. We live 12 miles from Snow Creek Indian Reservation but we seldom see an Indian. Our health has been fine since we have been here.

Respectfully yours,

J. J. SCOTT.

Feature of Church-Going Campaign.

If plans are carried out, the men attending Protestant churches in Louisville on Sunday, April 10, will, after the services, march to the Warren Memorial Presbyterian Church for a mass men's meeting. This will be one feature of what is termed the "Louisville church-going campaign."

TO REACH EVERY HOME.

The purpose of the campaign is to increase church attendance, leaving to each congregation the choice of its own means. Cards, advertising the campaign, will be distributed in every home.

The committee recommended that the period from April 3 to May 8 be set apart "for special prayer, labor and earnest, loving invitation to the regular services of the church—a church-going revival."

James Questions Veto.

"Governor Willson," said Mr. Ollie James, of Kentucky, "had no right to veto the income tax amendment which was presented to him."

"My information is that the amendment is in the proper form, duly signed by the Speaker of the House and by the Lieutenant Governor. He had only one duty to perform and that was to certify it to the National Government."

"I have talked to many of the leading lawyers in Washington, acknowledged authority upon constitutional law, and they agree that the Governor had no right to veto this amendment."

"I understand Governor Willson claimed to veto it upon the ground that he had not sent to the Legislature the resolution passed by Congress, saying that it had gotten lost in his office. It was sent to him last July; he was unable to find it, as I am informed, until the Legislature had been in session forty days, and he rested his veto upon his own negligence in losing the document, by saying that he had not communicated with the Legislature this resolution, and their action, therefore, was void because he had not done so."

Smallpox Epidemic.

County Judge W. B. Duff, of Campton, received a telegram from Dr. W. P. Wise, of Lee City, a member of the County Board of Health, stating that the smallpox epidemic at that place had reached a critical stage and had passed beyond his control and asking the Judge to come and take personal charge. Five new cases developed in one day, and people who had been exposed to the disease refused to keep in and citizens who have not been exposed refused to be vaccinated. The disease is reported to have started from a revival meeting held at that place.

INDIGESTION

Relief in Five Minutes and Permanent Cure or Money Back.

When W. S. Lloyd states that he has a remedy that is guaranteed to cure any man or woman who suffers from food fermentation which causes belching, sour stomach, gas eructations, heartburn and that lump of lead feeling in the abdomen or money back what are the poor stomach sufferers in Mt. Sterling and vicinity going to do about it?

The name of this most remarkable stomach prescription is Mi-on-a. Most people call them Mi-on-a stomach tablets because they hear that there is no remedy so good for indigestion or stomach disorders. Here is one opinion:

"I have been troubled with indigestion for more than a year. I bought one box of Mi-on-a and it cured me. Now I would not be without a box in the house for \$50.00. It saves a lot of doctor bills when you can be cured for 50 cents."

"You can use my name if you want to."—Arthur Sederquest, 6 Nichols St., Wakefield, Mass. Nov. 7, 1909.

Mi-on-a stomach tablets cost 50 cents a box at druggists everywhere and at W. S. Lloyd's. Booth's Pills will give constipation sufferers a joyful surprise. 25 cents.

Whisky Loaded Candy.

Getting drunk on candy has become such a wide-spread practice among men, women and children in the stockyards district of Chicago that the State Food Department purpose to put a stop to it, said Assistant Commissioner John B. Newman. "It is a medicinal intoxicant with 32 per cent. ether oil and 65 per cent. pure alcohol. It causes drunkenness and sickness. Candy filled with whisky is sold to women and children."
